

# **Player Auction Rules**

1. Each team has a total **purse of 130,000 points** for the auction.
2. For **Category A**, there are **12 players**, and teams can spend a maximum of **60,000 points** from their purse in this category.
3. For **Category B**, there are **18 players**. Among them we have **4 GKs**, they will be auctioned before others and two GK managers (Alif and Tamjeed) can't bid them. The other four managers have to buy one GK, and the fourth GK will be given at base price.
4. For **Category C**, there is no specific purse cap, but teams must stay within their overall purse of **130,000 points**. However, at the end of the **Category B** auction, each team must have at least **25,000 points** in their purse to accumulate **a total of 10 players**.
5. Following quota of players has to be met:
  - i. **Category A + Category B: 05 (exact)**
  - ii. **Category C: 05 (minimum)**
6. The auction follows a **bidding system**, starting at the **base price** of each player:
  - **Category A:** 15,000 points.
  - **Category B:** 8,000 points.
  - **Category C:** 5,000 points.
7. The bid increments are follows:
  - For bids **in category A**, the increment is **1000 points (min) at initial stage**. However once the price goes up to **20,000 points** the increment is **2000 (min) points**.
  - For bids **in category B & C**, the increment is **500 points (min) at initial stage**. However once the price goes up to **10,000 points** the increment is **1000 points (min)**.
8. If a player remains unsold during their initial round in the auction, they will be re-auctioned after all players of the same category have been bid on.
  - Category A: If the player is still unsold after the second round, category will be decreased to Category B,
  - Category B: If the player is still unsold after the second round **then category will not be decreased**, they will be **distributed among the teams** by the organizers.
  - Category C: If the player is still unsold after the second round, they will be distributed among the teams by the organizers.
9. Each team must select a minimum of **10 players** to complete their squad.

10. Teams cannot exceed their **total purse of 130,000 points** at any stage of the auction.
11. If two teams bid the same price for a player, the price will rise. But if it reaches the upper limit a **lottery** will take place to decide which team will get the player.
